Mr. James J. Angleton

STAT

Dear Mr. Angleton:

Just a word to say thanks once more for your help last Friday. I've reviewed the tapes and can report that they are full of choice bits of information that should make our history more accurate and sensitive to the currents of the 1960s and early '70s. In this important sense, your cooperation has been not merely useful, but vital.

I shall give you a call once we get the transcript prepared. By that time perhaps you will have had an opportunity to review the one I left with you last Friday. As I believe I said then, do not hesitate to mark it up--the more comments, the better. This would be particularly appreciated for those passages where you think we have missed or garbled your actual meaning.

Again, many thanks for a valuable--but also an enjoyable--afternoon.

Sincerely yours,

*KS*
